WHAT DID THEY LEARN THIS MONTH?

Over the last month the children explored numbers, textures, and a few different scientific experiments in our preschool room. They also enjoyed a good amount of time outside on the playground as the weather has improved this spring. These experiences provided them with opportunities to learn and grow in a fun and meaningful way.

FUN TIMES IN STAMFORD

The children in Stamford delved into the fascinating world of geometric shapes, and it was a learning-filled, and fun experience for all!

FACE PAINTING

They also had an amazing time on a special day where their faces became canvases to express their creativity. It was a burst of colors and huge smiles!

LEARNING COLORS

Babies had fun exploring colors and textures by glueing colored paper onto drawings based on the color of the day! It was a fun way to stimulate their sensory development.
